

EV-700 Setting Software Usage Precautions

EV-700 Setting software versions are basically compatible with each other. However, if different software versions are used in combination as listed below, take the countermeasures as instructed below.

Setting software version which created and saved the project	Setting software version to use	
	Ver. 1.04.06 or earlier	Ver. 1.04.07 or later
Ver. 1.04.06 or earlier	Compatible	Compatible but there is a precaution. (See Countermeasure 1 below.)
Ver. 1.04.07 or later	Possibly incompatible (See Countermeasure 2 below.)	Compatible

Countermeasure 1

A Conversion confirmation dialog as shown below may be displayed. In this case, click the Yes button. This conversion does not affect the Settings and the Audio source file.

Countermeasure 2

An Error screen as shown below may be displayed. In this case, use the EV-700 Setting software Ver. 1.04.07 or later.

Download the latest version of EV-700 Setting Software from the TOA Products Data download site (<https://www.toa.products.com/international/>).
