

DM-880-EB

Dynamic microphone

**Excellent sound quality and
appealing design.**

DM-880-EB

Dynamic microphone

The DM-880-EB is a professional, low input impedance, hyper-cardioid and hand held dynamic microphone. It is suitable both for general use and vocal application. Its body is rigidly constructed of metal die-cast and designed to reduce switching and handling noise.

- Dynamic microphone for professional applications
- Designed to reduce switching and handling noises
- It is ideal for multi-purpose event locations and voice applications
- Body constructed of metal die-cast

Applications

Lectures and seminars

Speech

Hotels, Conference halls, Event locations

Education: schools, universities

Specifications

DM-880-EB	
Type	Moving coil microphone
Directivity	Hyper-cardioid
Rated Impedance	250 Ω , balanced
Rated Sensitivity	-52 dB $\pm$ 3dB (0 dB = 1 V/Pa, 1kHz)
Frequency Response	70Hz – 17kHz
Talk Switch	Short-off circuit type, slide on/off switch
Finish	Body: Die cast zinc, painted black / Head: Steel wire, painted black
Dimensions ($\varnothing$ x L)	54mm $\varnothing$ x 174 mm
Weight	344 g (without connection cable)
Accessory included	Connection cable (XLR female - phone plug unbalanced 5m; microphone holder (5/8"))
