# PM-1200

## Paging Microphone

TOA introduces a new paging microphone with push-to-talk switch and remote control output. The PM-1200 is rigidly constructed of metal die-cast and designed to reduce switching and handling noise. Integrated into your PA system, you can override paging by contact output. With its clear sound, easy handling and pleasant design, the PM-1200 is perfectly built for all commercially installed sound applications.

### FEATURES

- ✔ Push to talk switch
- ✔ Remote control output
- ✔ Rigidly constructed of metal die-cast
- ✔ Designed to reduce handling noise

### APPLICATIONS

Conference centres

Hotels and Eventlocations

Houses of Worship

Supermarkets

Office buildings

Educational facilities

Factories

Retail stores
