

FB-P12B-EB Active Subwoofer

Compact, flexible and powerful

The subwoofer for a high class sound experience

We supply sound, not equipment.

FB-P12B-EB

Active Subwoofer

Elevate your audio with the **TOA FB-P12B-EB** active subwoofer: a compact powerhouse delivering superior sound quality. With its dual amplification function it seamlessly integrates with **TOA's HX-5, HS-120** or **other full-range speakers** for a balanced, rich sound in any setting. This makes it an optimal solution for a mobile speaker system for diverse application scenarios.

The **FB-P12B-EB** is equipped with three types of audio inputs: Mic, Line and Aux (XLR and phone-jack connector) which makes it easy to connect all kinds of music sources like instruments, CD-players or simply a mobile phone. It offers two audio outputs, one for a line signal and one for a passive speaker which can be powered with up to 350 W. The subwoofer contains advanced EQ settings including two predefined EQ setups for the combination with the HX-5 and the HS-120 speaker. The user mode allows to customize EQ settings for a personalized audio – through computer, Android or iOS App. With its state-of-the-art technologies and a modern design, this subwoofer fits for most usecases in which a speaker with great mobility, comprehensive features and a rich sound image is required.

Combined power thanks to the **dual amplification function** of the FB-P12B-EB. Mounting pole (35 mm diameter) not included.

Application examples

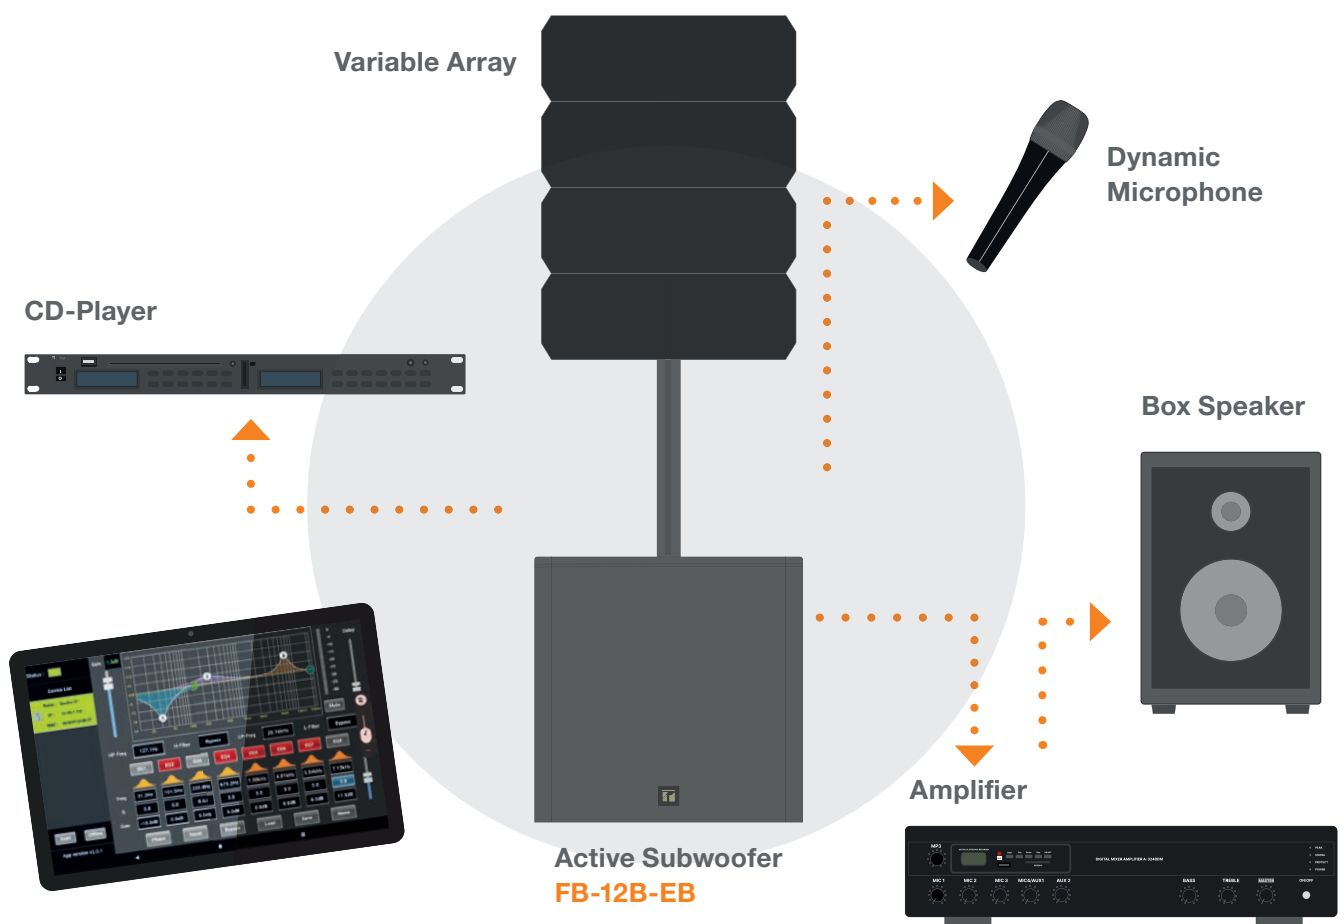

Flexible usage for a wide range of scenarios, including live performances, sports facilities, exhibition centres, music venues, schools, community or cultural events, mobile stage setups, cafés and restaurants.

Features
